Software Developer

Software Developer with 2 years of experience in fintech and startup environments, proficient in React.js, Angular, Node.js, and MySQL. Improved application performance (30%+ load-time and query latency reductions) and contributed to building scalable full-stack products. Strong in API development, UI optimization, deployments, and collaborative Agile workflows.

SKILLS

- **Languages & Databases:** Drizzle ORM, HTML/CSS, Java, JavaScript, MySQL, SQL, TypeScript
- **Frameworks/Libraries:** Angular, Bootstrap, React.js, Tailwind CSS
- **Tools & Platforms:** Agile, BitBucket, GitHub, Jira, Microservices, Node.js, Postman, REST API

WORK EXPERIENCE

Digital Ipsum

Mar 2025 - Nov 2025

Senior Web Developer • Internship

Remote

- Developed scalable fullstack applications using React.js (Vite), Node.js, Express, and MySQL with Drizzle ORM.
- Deployed backend applications on cPanel using PM2 and handled configuration for subdomains, HTTPS, and environment setup.
- Led development of key modules including a Password Manager and AI-based chatbot tool, collaborating closely with interns, designers, and cross-functional teams.

Avaloq

Oct 2023 - Nov 2024

Software Developer — Product-Based Fintech MNC

Pune, India

- Enhanced corporate payments platform performance with Angular, achieving **30% faster page load times** through code optimization, lazy loading, and caching.
- Refactored TypeScript and SCSS architecture to enable **25% faster feature delivery cycles** and improved maintainability.
- Developed responsive UIs using Angular Material and RxJS, ensuring smooth cross-device experience on 5+ device types.
- Delivered features with **98% on-time completion** while collaborating with 10+ engineers in Agile sprints.

EDUCATION

Post Graduate Diploma in Advanced Computing • CDAC, ACTS • GPA: Grade A

Pune, Maharashtra • Aug 2023

Bachelor of Engineering in Computer Science & Engineering (CSE) •

Priyadarshini College of Engineering • GPA: 8.94

Nagpur, Maharashtra •

Sep 2018 - Sep 2022

PROJECTS & LEADERSHIP

Online Art Gallery - Spring Boot, React

Built a fullstack e-commerce platform for artists with secure login and REST-based data flow.

Password Manager (Agency Tool) - MERN, Drizzle ORM

Developed internal password vault with admin roles, JWT auth, and cPanel deployment.

Treasurer

Treasurer of ACES; organized technical events across campus, both intra- and inter-college.
