## Skills

---

**Frontend:** React.js, Next.js, JavaScript, TypeScript, HTML, CSS, AntD, Tailwind CSS, Material UI, ShadCN UI, Aceternity UI  
**State Management:** Redux, React Query (TanStack Query), Zustand  
**Backend & APIs:** Node.js, Express.js, REST APIs, Microservices, MongoDB, Prisma  
**DevOps & Infrastructure:** AWS (S3, Lambda, Cognito, API Gateway), Firebase, Docker  
**Others:** JWT, OAuth, Firebase Auth, SSR, SSG, WebSockets, Git, Vercel, Performance Optimization, Responsive Design

## Experience

---

### ReactJS Frontend Developer

June 2023 – Present

*Consint.AI Pvt. Ltd.*

- Led end-to-end development of AI-powered healthcare applications aimed at modernizing hospital workflows and improving patient management efficiency, resulting in streamlined clinical operations and enhanced care coordination.
- Designed and implemented a longitudinal patient tracking system that aggregated and visualized patient data across time, enabling clinicians to make better-informed decisions and identify trends in patient health.
- Developed specialized AI-integrated modules to automate critical healthcare processes:
  - **Passport Extractor** – Automated extraction and validation of patient identification details from passport documents.
  - **Entity Extractor** – Leveraged NLP to identify and categorize key medical entities from unstructured clinical notes.
  - **Face Recognition Portal** – Enhanced patient identification and secure access through biometric authentication.
- Created a centralized document management system for organizing and retrieving medical records, reducing administrative burden and improving compliance with data governance policies.
- Implemented a claims automation system to optimize interactions between insurers and providers, accelerating reimbursement cycles and reducing manual errors.
- Integrated FHIR (Fast Healthcare Interoperability Resources) standards into system architectures to enable seamless, secure data exchange across disparate healthcare platforms.
- Delivered multiple full-stack proof-of-concept (POC) projects from initial ideation through to execution, demonstrating feasibility and value of proposed technical solutions.
- Conducted stakeholder demonstrations and requirements gathering sessions to align technical development with user needs and strategic business objectives.
- Mentored frontend development team on best practices, code quality, and responsive design while actively contributing to high-level technical discussions and architectural planning.

## Education

---

### Galgotias University

Greater Noida, India

*B.Tech. in Computer Science & Engineering*

*May 2024*

### Mercy Memorial School

Kanpur, India

*Class XII – ISC*

*2020*

### Mercy Memorial School

Kanpur, India

*Class X – ICSE*

*2018*

## Awards and Recognition

---

- **Spot Award (Q3 2024)** – Recognized for exceptional accountability and execution speed in delivering critical development sprints and implementing a complex user interface ahead of schedule.
- **Promising Newcomer Award (Q2 2024)** – Honored for demonstrating rapid ownership and client-facing excellence, including leading stakeholder communication and delivering multiple proof-of-concepts (POCs) that secured project buy-in.
- **Spot Award (Q4 2023)** – Awarded for outstanding full-stack contributions and innovation, successfully integrating AI capabilities into the product pipeline while meeting key frontend and backend deliverables.
