

# SHAHRUKH KHAN

## SOFTWARE DEVELOPER

### CONTACT

- +91 9354267193
- sharukhkhkhan2516@gmail.com
- https://www.linkedin.com/in/sharukh-khan-b223b7279

### SKILLS

- Experienced in JavaScript Programming
- Angular Development
- React Development
- NextJS Development
- PHP Development
- Node.js Developer
- AngularJS
- HTML, CSS, Bootstrap
- Database- MySQL, Mongo dB

### POSITION OF RESPONSIBILITY

- As the lead on the project, UI development was overseen, and intricate calculations were managed throughout the application.
- A strong spirit of teamwork was fostered, with effective collaboration established to address and resolve any issues that arose, driving the project to success

### EDUCATION

- J.C. Bose University of Science and Technology, YMCA Bachelor of Technology (B.Tech.)
- Haryana Board of School Education (XII)
- Haryana Board of School Education (X)

### ACHIEVEMENTS

- Promoted to Team Lead
- Implemented security measures
- Awarded 'Outstanding Software Developer'
- Led the development and launch of a flagship product feature set

### LANGUAGE

- English
- Hindi

### PROFESSIONAL SUMMARY

- Experienced Frontend Lead specializing in Next.js, and Angular with strong expertise in Led the frontend development of 15+ projects, including ERP, CRM, TTMS, CRPF, Navy E-Claim and E-commerce Platform projects, focusing on enhancing performance and user engagement.
- Experienced in agile environments, enhancing problem-solving efficiency by 20%. Proficient in JavaScript with a strong ability to adapt to new technologies and frameworks, consistently delivering solutions that boost applications performance and user satisfaction.

### EXPERIENCE

#### Software Developer

Elite Mindz Pvt. Ltd. — Nov 2024 – Present | Delhi (WFO)

- Contributing to the development of enterprise-grade ERP, CRM, and HRMS platforms to streamline and automate key business functions.
- Worked on modules covering Purchase Requisitions (PR), Purchase Orders (PO), Payroll, Recruitment, Performance Management, and other key business functions.
- Focused on building scalable solutions that enhance operational efficiency, improve decision-making, and support end-to-end digital transformation.

#### Software Developer

Loyalty partner It Solution Pvt. Ltd. — Jan 2024 – Nov 2024 | Faridabad (Haryana)

- Collaborated with cross-functional teams to analyze requirements, troubleshoot issues, and implement efficient solutions following best coding practices.

#### Backend Developer

SM Webtech INDIA — Jan 2023 – Jan 2024 | Delhi (Up)

Collaborated with cross-functional teams to analyze requirements, troubleshoot issues, and implement efficient solutions following best coding practices.

#### Software developer (Internship)

Web lytic Labs — Jan 2022 – Oct 2022 | Faridabad (Haryana)

- Assisted in designing and developing Core php based website, debugging issues, and enhancing app performance while learning industry best practices.

### WORK HISTORY

#### Angular Developer

- Developed dynamic reactive and template-driven forms with custom validators for efficient data processing.
- Integrated APIs using HttpClient and HTTP Interceptors, managing token handling and error responses for secure communication.
- Implemented lazy loading to improve application performance and reduce initial load times.
- Ensured code reusability and scalability using shared modules and services. Followed modular architecture and separation of concerns.
- Created 50+ reusable components, streamlining development and ensuring consistency across the application.
- Managed state with Angular services and RxJS (Subject, BehaviorSubject) for real-time updates and smooth component communication.
- Set up Angular Router with guards for secure, role-based navigation to enhance security and user experience.
- Integrated AG Grid, improving data load speed by 40% and boosting user efficiency by 30% with advanced table features.

## PHP Developer

- PHP-powered fast, secure, and scalable Admin Panel — with role-based access, advanced analytics, dynamic CRUD, import/export, audit logs, multi-language support, and a lightning-fast UI to automate workflows and enable real-time business decisions.
- Robust API Integrations in PHP —including Razorpay/Paytm, WhatsApp/Telegram, Google Maps, SMS/Email gateways, shipping & ERP/CRM sync, JWT/OAuth security, rate-limiting & retry logic, webhooks, and detailed logging—all in a plug-and-play architecture to keep your app seamlessly connected across platforms.

## NodeJS Developer

- API Development: Built and managed RESTful APIs with Express.js, improving data flow and reducing development time by 40%.
- Database Integration: Integrated MySQL with Sequelize for robust relational data handling, cutting data-related issues by 60%.
- Authentication & Authorization: Implemented secure JWT-based login and role-based access control, boosting app security by 70%.
- Error Handling & Middleware: Created custom middleware for error handling, logging, and request validation, improving debugging efficiency by 50%.
- Performance Optimization: Optimized API responses and database queries, increasing response speed by 35%.
- API Testing: Used Postman for thorough API testing, reducing integration issues by 45% and ensuring a seamless user experience.

## TOP PROJECTS

---

### ERP System

- Developed 5+ ERP projects, improving workflow and cross-department operations.
- Developed ERP modules for HRMS, ESS, leave, attendance, recruitment, PR, PO, and other core business functions.
- Streamlined data management and optimized internal resource handling for improved efficiency.
- Technologies used: React, Angular, Node.js, MySQL

### MECTS(CRM System)

- Developed an CRM system managing CRM functionalities.
- Streamlined HR processes and employee management, along with CRM features to enhance customer relationships and communication.
- Technologies used: Angular, Node.js, MySQL

### CRPF CLMS(Liquor Management System)

- Developed a Liquor Management System for the Central Reserve Police Force (CRPF), using Angular for the admin panel.
- Streamlined inventory, distribution, and tracking of liquor supplies across units for better control and transparency.
- Technologies used: Angular

### Blueberry Travel(CRM System)

- Developed an CRM system managing CRM functionalities.
- Streamlined HR processes and employee management, along with CRM features to enhance customer relationships and communication.
- Technologies used: Angular, Node.js, MySQL

### Ashamatrimonal.in(Admin Panel)

- Technologies used: PHP Core
