## CAREER GOAL

---

To build a strong career as a Software Developer by designing and developing scalable, high-performance applications, continuously learning modern technologies, and contributing to impactful, real-world solutions.

## SKILLS

---

|                 |   |
|-----------------|---|
| Frontend        | HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap  |
| Backend         | Node.js, Express.js, MongoDB                              |
| Version Control | Git, GitHub   |
| Soft Skills     | Problem Solving, Teamwork, Communication, Time Management |

## EXPERIENCE

---

### Code Magnetic Private Limited

Sep 2025 - Nov 2025

#### Software Developer

- Understood business requirements and built responsive, user-friendly interfaces using React.js, Tailwind CSS, HTML, CSS, JavaScript, and Bootstrap.
- Built core modules including Login/Signup, Appointment Booking, Doctor Dashboard, and Admission Management.
- Integrated front-end with Node.js/Express APIs and connected to MongoDB for secure data handling.
- Implemented JWT authentication to ensure safe and controlled user access.
- Enhanced UI/UX through optimised layouts, clean forms, and smooth navigation.
- Ensure/align mobile-first design to enhance performance across all devices.
- Improved skills in API integration, authentication flows, and scalable component development.

### Global Garner Sales Services Ltd.

#### IT Admin Support

Mar 2024 - July 2025

- Contributed to the development and maintenance of internal digital tools, including UI enhancements, bug fixes, and feature updates.
- Collaborated with product and tech teams to test, validate, and deploy software solutions.
- Provided front-end technical assistance, debugging user issues, and ensuring smooth daily system operations.
- Improved internal workflows by identifying system gaps and contributing code-level optimisations.
- Managed and optimised the company's digital platforms, improving user experience and engagement.

## INTERNSHIPS

---

### Web Developer Intern

Nov 2022 - Dec 2022

- Built a secure and user-friendly banking platform enabling real-time fund transfers between accounts, enhancing reliability and user experience.
- Gained hands-on experience in full-stack development using HTML, CSS, Node.js, Express.js, and MongoDB.
- Followed structured development practices, including RESTful API integration and database management.
- Deployed the application online, ensuring accessibility and consistent performance across environments.
- Utilized Git and GitHub for source control, version management, and collaborative development.

## PROJECTS

---

## E-commerce Web App

- Enhanced a full-featured e-commerce platform to support seamless online sales.
- Developed using the **MERN stack: MongoDB, Express.js, React.js, and Node.js**.
- Implemented key features, including product listings, cart system, user authentication, and API integrations.
- Assisted in setup, testing, and support of new digital solutions.

## File Sharing Web App

- Built a complete backend system using **Node.js and Express.js** with a modular MVC architecture.
- Developed secure and reusable REST APIs using routing, models, services, and middleware.
- Implemented features including file uploads, environment configuration, and server-side rendering.
- Utilised Git/GitHub for version control and maintained a clean project structure.

## EDUCATION

---

**B.Tech (Information Technology)**, [IIMT College of Engineering]

2019 - 2023
