## Objective

A **Full Stack Web Developer** with hands-on experience in building responsive, scalable web applications using **React.js**, **Node.js**, **Express**, and **MongoDB**. Passionate about creating efficient **front-end interfaces** and robust **back-end systems**, aiming to contribute to a dynamic development team.

## Experience

2 years

### •Airo Digital Labs

Analyst Delivery

Mar/2024 - Aug/2025

- Delivered end-to-end digital logistics solutions for key clients including Lulu Mall, Aditya Birla, and Titan.
- Developed REST APIs using Node.js and Express for logistics workflows
- Developed and maintained backend APIs for data processing, system communication, and seamless integration with client platforms.
- Collaborated with cross-functional teams for production deployment

### •Maskan Technologies

Full Stack Web Developer

Sep/2023 - Feb/2024

- Developed responsive full-stack web applications using the MERN Stack.
- Built and deployed end-to-end solutions for Health Care and Magnus Construction portals.
- Delivered scalable features and optimized client projects for improved performance and user experience.

## Education

### •Bachelor of Technology in Computer Science and Engineering

2017–2021

Feroze Gandhi Institute Of Engineering and Technology, Raebareli (CGPA: 7.6)

## Projects

### • Task Manager Web App

GitHub | Docker Hub

Built a task manager web application using **HTML**, **CSS**, and **JavaScript**; containerized with Docker and published on Docker Hub for deployment.

Technologies: *HTML, CSS, JavaScript, Docker.*

### • Credit Book App (Node.js Backend Application)

GitHub

Designed a lightweight backend application to automate file creation with **timestamp-based naming**.

Optimized file handling using **asynchronous fs operations** to prevent blocking the Node.js event loop.

Structured the Express application using **middleware, routes, and static asset handling**.

Gained hands-on experience in **server-side development** and **filesystem-based data management**.

Technologies: *Node.js, Express.js, JavaScript, File System (fs), EJS.*

### • My Contact Form

GitHub | Docker Hub

Responsive contact form built with **HTML**, **CSS**; containerized and published on Docker Hub.

Technologies: *HTML, CSS, Docker.*

## Technical Skills and Interests

**Languages:** JavaScript, Java, Python, Linux (Shell Scripting)

**Frontend:** HTML, CSS, Bootstrap, Tailwind CSS, React.js

**Backend:** Node.js, Express.js, EJS, REST API, MongoDB, MySQL

**Cloud & Serverless:** AWS

**Tools:** MS Excel, Postman, GitHub

**Coursework:** Data Structures & Algorithms, OOP, DBMS

## Certifications

- **JAVA Certification – IIT Kharagpur (NPTEL):** Achieved certification in **Data Structures and Algorithms using Java** with an excellent score of **86%**, demonstrating strong problem-solving and programming skills.
