SUMMARY

Passionate Full Stack Developer with 2 years of experience at **UPBS Technology Pvt. Ltd.** Skilled in HTML, CSS, JavaScript, React, and Node.js. Focused on creating responsive, high-performance web solutions that enhance user experience and business efficiency.

SKILLS

- **Frontend Technologies** : HTML5, CSS3, JavaScript, React.js, Tailwind, WordPress, Bootstrap
- **Backend Technologies** : Node.js
- **Tools/Platforms**: Git, Github, Canva
- **Database**: MySQL

EXPERIENCE

Unified Programming Business Solutions (UPBS) / Noida, India

May 2024 - Present

Full Stack Developer

- Collaborated with the design and backend teams to deliver **custom, client-focused web solutions** that improved user engagement and site performance.
- Developed and maintained responsive, high-performance websites using HTML, CSS, JavaScript, and React, ensuring smooth functionality across all devices and browsers.
- Created and edited **Instagram reels and digital content** to promote company projects and services, boosting social media visibility and client interaction
- Contributed to multiple live client projects, handling both development and deployment phases, ensuring timely delivery and high-quality code standards.

Jan 2024 - April 2024

Frontend Developer Intern

- During my internship at **UPBS Technology Pvt. Ltd.**, I gained hands-on experience in **frontend development**, working with **HTML, CSS, JavaScript, and React** to build responsive web interfaces. I collaborated closely with senior developers on live projects.

PROJECTS

Career Gennie | [Live Demo](#)

Tech Stack: React.js, Node.js, MongoDB, Express, JWT, Figma

- Led the front-end development, creating a responsive and interactive UI for resume creation and download.
- Designed intuitive layouts in Figma and implemented key functionalities using React.
- Integrated REST APIs and deployed the project for real-world use.

UPBS Technology | [Live Demo](#)

Tech Stack: WordPress, Html, CSS, JavaScript, Contact Form 7, DIVI, Elementor

- Developed and maintained the UPBS Technology official website using WordPress integrated with custom JavaScript, HTML, and CSS, enhancing performance, responsiveness, and user engagement.
- Implemented custom-coded features and dynamic UI components, going beyond standard WordPress functionality to deliver a seamless, interactive user experience.
- Optimized the website for SEO, mobile performance, and real-world deployment, aligning with the company's goal of providing high-performance digital solutions.

Career Gennie Job Portal | [Live Demo](#)

Tech Stack: React.js, Node.js, MongoDB, Express, JWT, Figma, Tailwind

- Developed and implemented multiple interactive forms and recruiter dashboards for the CareerGennie Job Portal, enabling efficient management of job postings and candidate data.
- Built dynamic interfaces and data-driven modules allowing recruiters to view applicant profiles, access resumes, and monitor application activity in real time.
- Integrated user-recruiter workflows with secure data handling and optimized performance, enhancing the platform's functionality and overall user experience.
