EXPERIENCE

Software Engineer at MetaSquare Technologies Pvt Ltd [🔗](#) | (Gurugram)

July 2024 - Present

- Developed and maintained the front-end of the Mental Health Insurance and Hospital Management System using React.js (2015), Material-UI, and React Redux.
- Designed and implemented user-friendly interfaces for seamless interaction between patients, insurance companies, and hospitals.
- Ensured responsive design and cross-browser compatibility to enhance the user experience across various devices.
- Collaborated with backend developers to integrate front-end components with server-side logic.
- Utilized React Redux for efficient state management and optimized data flow.
- Worked closely with UI/UX designers to develop intuitive and visually appealing interfaces.
- Conducted live bug fixing to ensure a smooth and uninterrupted user experience.
- Provided technical support and troubleshooting for front-end-related issues.
- Actively participated in code reviews, offering feedback to maintain code quality and best practices.
- Optimized application performance for faster load times and smooth user interactions.

Software Engineer at Metatronics Digital Pvt Ltd [🔗](#) | (Gurugram)

July 2022 - July 2024

- Developed and maintained the main web application and NFT marketplace using React.js and Redux.
- Implemented frontend features to enhance user interaction and engagement.
- Collaborated with backend developers to integrate front-end components with server-side logic.
- Integrated AWS S3 for efficient storage and retrieval of assets.
- Ensured responsive design and cross-browser compatibility for a seamless user experience.
- Collaborated with backend developers to integrate the frontend with server-side logic.
- Conducted code reviews and provided feedback to improve code quality.
- Worked closely with UI/UX designers to implement intuitive and visually appealing interfaces.
- Optimized application performance for faster load times and a smooth user experience.
