SUMMARY

Full Stack Developer (**MERN Specialist**) with expertise in **React.js, Node.js, Express.js, MongoDB**, and experience with **Docker, Nginx, and Strapi CMS**. Skilled in designing scalable web applications, secure authentication flows, and optimized APIs. Adept at working across frontend, backend, and deployment to deliver high-performance solutions.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux, JavaScript, Tailwind CSS, Bootstrap, MaterialUI
Backend: Node.js, Express.js, Strapi CMS, REST APIs, Authentication (JWT, OAuth2)
Database: MongoDB, Mongoose, MySQL, PostgreSQL
Tools & Platforms: Docker, Nginx, Git, Postman, VS Code
Additional: Microservices, Payment Gateway Integration

EDUCATION

Master of Computer Application (MCA)

Indira Gandhi National Open University (IGNOU) (Jan 2022 - Jan 2024)

WORK EXPERIENCE

Software Engineer – Interactive Bees, Delhi (Sep 2024 – Present)

- **Deployment:** Hosted production-ready projects with **custom Nginx configuration** for routing and load handling
- **Payment Gateways:** Integrated **Stripe & Razorpay** for secure payments, reducing transaction failures and improving checkout experience.
- **Strapi CMS:** Built flexible, scalable CMS architecture, enabling non-technical teams to manage content seamlessly.
- **Frontend Development:** Delivered responsive, dynamic UIs with **React.js, Next.js, Redux, Joi & Zod validation**, improving usability and reducing form submission errors by 20%.
- **API Design:** Architected and optimized **RESTful APIs** with Express.js, ensuring secure and efficient server-side communication.

Software Developer – The TechRavens Pvt. Ltd., Noida (Apr 2022 – Aug 2024)

- **Microservices:** Designed microservices-based architecture, enabling scalability and modular development for large projects.
- **Webhooks Integration:** Built and optimized **Stripe & Razorpay webhooks**, automating workflows and ensuring real-time updates for financial transactions.
- **Middleware & Performance:** Implemented custom **Express.js middleware**, reducing redundant calls and improving API response times by 25%.
- **UI Development:** Developed complex dashboards with **React.js & Next.js**, leveraging UI libraries (**AntD, MUI, Chakra UI**) to deliver consistent user experiences.
- **Full Stack Development:** Contributed across the stack—**Node.js, MongoDB, Express.js, React.js**—delivering end-to-end features from database design to frontend.
- **Team Collaboration:** Worked in agile teams, writing clean, reusable code and mentoring interns on best practices in MERN stack.

PROJECTS

- **CenturyPly (Ecommerce website):** The **CenturyPly Ecommerce Website**, built with **Next.js, Strapi CMS**, and **PostgreSQL**, offers a fast, secure shopping experience with features like guest user, register user complete shopping flow and secure payments.
Technology: NextJs, Strapi Cms, PostgreSQL **url -** <https://www.centuryply.com/>
- **Vinsys (E-learning platform) :** **Vinsys** offers online courses across multiple countries, providing high-quality training in various fields. The platform enables users to access courses anytime, anywhere, ensuring a seamless learning experience with global reach
Technology: NextJs, Python, Postgresql **url -** <https://www.vinsys.com/>
- **Spice Money (E-learning platform):** Built and deployed the Spice Money website with secure authentication, smooth transaction workflows, and a responsive UI for digital financial services. Integrated scalable backend APIs to ensure reliable performance and enhanced user experience.
Technology: Next Js, Postgresql **url -** <https://www.spicemoney.com/>
- **India Books of Records -IBR (India Records):** registered with Government of India, trusted by millions of Indian. Wepublish record book each year so your ability get recognition.
Technology: Javascript, Node, MySQL, HTML, CSS **url -** <https://indiabookofrecords.in/>
