## Projects

### Lost & Found MERN App (Full-Stack)

- Full-stack application allowing users to add, edit, delete, and search lost/found items.
- Backend: Node.js, Express, MongoDB, JWT authentication.
- Frontend: React with responsive UI; integrated Cloudinary for image uploads.

### Movie Recommendation System (MERN)

- Dynamic movie recommendation platform using React, Node.js, Express, MongoDB.
- Implemented API integration, collaborative filtering, and responsive UI.
- Deployed online for real-world usage.  
whasta

## Certifications & Courses

- Full-stack Web Development Bootcamp – HTML, CSS, JS, React, Node.js, MongoDB, deployment.
- Full-Stack Web Development Certification – Hands-on projects with front-end and back-end skills.

## Achievements & Hackathons

- Built and presented **Movie Recommendation App** as part of a team project.
- Successfully deployed multiple personal projects on **GitHub Pages** and **Netlify**.
- Continuously learning modern web technologies and AI/ML basics.
