Profile

Computer Engineering graduate with hands-on experience in web development using HTML, CSS, JavaScript, Node.js, and MongoDB. Team player, open to feedback, and eager to grow in a real-world development environment.

Education

- | | |
|-------------------|---|
| 08/2019 – 08/2022 | Bachelors of Technology
<i>Madan Mohan Malviya University of Technology</i>
Computer Science and Engineering |
| 09/2016 – 06/2019 | Diploma
<i>Government Polytechnic</i> |

Skills

- Python
- HTML/ CSS/ JavaScript/ React
- NodeJS, ExpressJS
- NodeJS, ExpressJS
- Git, Github Postman, VS Code

Projects

- | | |
|-------------------|---|
| 11/2021 – 04/2022 | File Share App <ul style="list-style-type: none">• I built a clean and simple interface where users can upload files without logging in.• After uploading, a unique download link is generated for easy sharing.• Used Multer in Node.js to handle file uploads and store metadata in MongoDB.• Added basic validations for file size and type to ensure secure uploads.• Designed the UI using HTML, CSS, Bootstrap, and made it responsive for mobile.• Used Express.js routes to manage upload and download functionality.• Made sure the app is easy to use and doesn't require any technical knowledge. |
| | DevBlog (Personal Blogging Platform) <ul style="list-style-type: none">• I built a complete MERN stack blog app from scratch, similar to Blogger.com ↗.• Implemented user registration and login using JWT and bcrypt for authentication and security.• Users can create, update, and delete their own blog posts from a personal dashboard.• Integrated image upload for blog banners using Multer.• Designed a clean and responsive UI with React and Tailwind CSS.• Set up protected routes so only authenticated users can access the dashboard or modify posts.• Added category-based filtering and individual post pages for better navigation.• Used MongoDB for storing user data, post content, and image links.• Created reusable components and maintained clean code structure using React best practices. |
