## PROFESSIONAL SUMMARY

Software Developer with 2+ years of experience building scalable web applications using React.js, Node.js, MongoDB, Express.js, Tailwind CSS, and MySQL. Strong expertise in frontend and backend development, API design, backend workflows, and user-focused interface development. Proven ability to work across the full development lifecycle, collaborate with cross-functional teams, and align technical solutions with business requirements. Hands-on experience with low-code platforms such as Aware IM and Wavemaker. Actively exploring advanced full stack concepts, Artificial Intelligence, and React Native.

## KEY HIGHLIGHTS

- 2+ years of experience across frontend, backend, and database layers with strong ownership mindset.
- Delivered multiple enterprise-grade applications with complete end-to-end responsibility.
- Solid understanding of REST APIs including API design, integration patterns, request/response lifecycle, authentication mechanisms, and backend service interaction.
- Extensive hands-on experience with React.js and Node.js for building scalable, user-centric applications.
- Led Velocity Shop (VShop) project, guiding a small team and delivering a full-stack solution with an admin dashboard implemented using Aware IM.
- 1.5+ years of direct client communication with US-based clients for requirement gathering, updates, and feedback incorporation.
- Experience leveraging Aware IM for backend workflows, workflow automation, and enterprise integrations.

## TECHNICAL SKILLS

**Frontend Development:** React.js, HTML5, CSS3, Tailwind CSS, JavaScript, jQuery, Kendo UI

**Backend Development:** Node.js, Express.js, REST API Development

**Databases:** MongoDB, MySQL, MSSQL

**Programming Languages:** Java

**Tools & Platforms:** Git, Postman, Docker, VS Code, Eclipse IDE

**Low-Code Exposure:** Aware IM, Wavemaker

**Exploring:** Advanced Full Stack Concepts, AI Fundamentals

## PROFESSIONAL EXPERIENCE

### Software Developer – Startwith Basicx, Jaipur (Aug 2023 – Jan 2026)

Led and contributed to full-stack development using React.js, Node.js, Express.js, and MySQL. Owned end-to-end delivery of the Velocity Shop Floor project, coordinated team activities, interacted daily with US clients, built REST APIs, backend workflows, dashboards, CRM and MRP workflows using Aware IM.

### Web Developer Intern – In Time Tec, Jaipur (Jun 2022 – Aug 2022)

Designed and implemented applications using Java, Servlets, JSP, and HTML. Worked in Agile teams and code reviews.

## PROJECTS

**Velocity Shop Floor (VShop):** React.js, Tailwind CSS, Node.js, Express.js, MySQL – Integrated a React-based frontend for labor tracking, attendance management, and task automation. Built backend logic and REST APIs using Node.js and Express.js. Implemented an admin dashboard for operational management and reporting using Aware IM.

**MRP System:** Backend workflows, Admin Dashboard, MySQL – Developed an admin dashboard for inventory management and production workflow tracking. Implemented core business logic to support material planning and operational processes.

**Complaint Management System:** Backend workflows, Admin Dashboard, MySQL – Designed and developed a ticket-based system to create, track, and manage user complaints. Enabled ticket generation, status tracking, task assignment, and centralized management of client data and daily workflows.

**Uber Clone:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Google Maps API – Built a full-stack Uber-like application with a responsive React frontend. Developed backend services and REST APIs to manage users, rides, and trip-related data. Integrated Google Maps API for location search, map rendering, and route visualization.

**MedFinder (Ongoing):** React.js, Node.js, Express.js, MongoDB – Developed a web application to locate nearby medical stores and display available medicines using location-based search and backend APIs.

**E-Commerce Website (Ongoing):** React.js, Node.js, Express.js, MongoDB, MySQL – Building a modular full-stack e-commerce platform implementing user authentication, product catalog management, and order processing workflows.

## EDUCATION

B.Tech – Information Technology, Swami Keshvanand Institute of Technology, Jaipur (2019–2023) | CGPA: 8.3

## CERTIFICATIONS

Data Structures and Algorithms | Salesforce Platform Developer I

## INTERESTS

Travel, Music
