- Wireframing • User Flow Mapping  
• Interaction Design • Prototyping • Usability Testing • Accessibility • Design Systems
- **Tools & Software**
- Figma • Adobe XD • Sketch • Illustrator • Photoshop • After Effects • Blender • Miro • Notion
- **Visual & Motion Design**
- Illustration • Iconography • Visual Hierarchy • Micro-interactions • Motion Graphics • Storyboarding

### PROFILE

I'm a UX/UI designer driven by curiosity and creativity — passionate about transforming ideas into experiences that feel intuitive, expressive, and alive. Through real-world projects, I've learned to blend structure with storytelling, using motion, interaction, and visual clarity to craft designs that connect on both functional and emotional levels. My goal is to make every interface not just usable, but memorable.

### WORK EXPERIENCE

**Bhutani Infra | May 2025 – Present**

**UX/UI Designer Intern,**

- Designed cohesive web and mobile interfaces focused on clear navigation and interactive flow.
- Developed animated prototypes using Figma and After Effects to visualise micro-interactions and user journeys.
- Collaborated with developers to ensure smooth design handoffs and pixel-perfect execution.
- Conducted user testing to refine layouts, enhance accessibility, and balance aesthetic appeal with usability.
-
