EXPERIENCE

Infuber — Full Stack Developer (Remote)

Dec 2024 - Present

- Led the MERN stack architecture and scaling of a microservices-based influencer platform, orchestrating 6+ core services (authentication, campaign management, etc.) to support over 5,000 monthly active users.
- Engineered an intelligent automation suite using **Instagram Graph API** and **webhooks** to parse user comments, detect keywords, and trigger automated product-link DMs.
- Streamlined influencer-to-conversion flow by automating engagement responses, boosting conversion accuracy and reducing manual workload.
- Implemented **Razorpay payment button** for subscription-based automation features, enabling seamless recurring payments and improving the overall user payment experience.
- Engineered a real-time Recharts analytics dashboard and 20+ mobile-first UI components (React, Redux Toolkit, Tailwind CSS), delivering critical insights on reach across 10K+ posts, optimizing response times by 60%.
- Implemented robust, multi-vector authentication, integrating Instagram, Google, Facebook, and YouTube OAuth with JWT/bcrypt and RBAC, while also automating transactional email workflows (**Nodemailer**, **SendGrid**) with 99.9% delivery success.

Site Guru Pvt. Ltd — Full Stack Developer Intern

Oct 2024 - Nov 2024

- Developed and deployed 10+ responsive frontend pages for a MERN stack course website at Site Guru Pvt. Ltd., leveraging React.js and Tailwind CSS to enhance accessibility for 100+ course modules and optimize page load speed by 20%.

TECHNICAL SKILLS

Languages: JavaScript | Java (basic).

Frontend: React.js | Redux | HTML | CSS | Bootstrap | Tailwind CSS | Material UI.

Backend: Node.js | Express.js | RESTful APIs | Microservices | JWT.

Database: MongoDB | MySQL | Supabase.

Tools and Platforms: Git | GitHub | Postman | Docker (basic) | VSCode | Cloudinary | Multer | SendGrid | FingerprintJS.

Operating Systems: macOS | Linux (Ubuntu) | Windows.

PERSONAL PROJECTS

Job Portal

[Project Link](#) | [Github](#)

- Created and managed a **Job Portal** utilizing the **MERN Stack** (MongoDB, Express.js, React.js, Node.js), supporting **1,000+ students** and **500+ recruiters** for frictionless job applications and postings.
- Integrated **JWT authentication**, **Multer for file uploads**, and a responsive **React.js UI**, alongside robust API endpoints and reducing login time by **30 seconds** per session.

ChatApp

[Project Link](#) | [Github](#)

- Built a beta version of a **Chat App** with features like **one-to-one** and **group chat**, real-time messaging using **Socket.IO**, and efficient state management in the MERN stack.
- Developed responsive UI with React.js, managed 1000+ records in MongoDB, and executed optimized server-side logic using Node.js for smooth performance.

Quicko (E-commerce)

[Project Link](#) | [Github](#)

- Assembled an **Blinkit-like platform** with **secure JWT-based authentication**, real-time cart synchronization, and a user-friendly checkout process with **Stripe** payment integration.
- Executed an adaptive cart system with real-time updates, supporting **500+ daily** transactions, and improved the user interface for a smooth and responsive shopping experience.

EDUCATION

UIET CSJM University, Kanpur (India)

2020 – 2024

Bachelor of Technology in Information Technology

ADDITIONAL INFORMATION

- 100+ Questions Solved on different Platforms:** [GeeksforGeeks](#) and [LeetCode](#).
- Certifications:** [Full Stack Web Development](#) (Udemy, 95%)
- Soft Skills & Hobbies:** Creative Thinking, Teamwork, Playing chess
