

# ADARSH C

Full Stack Developer

+91 7356683993 | [adarshshanu3@gmail.com](mailto:adarshshanu3@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

## PROFILE SUMMARY

Results-driven Full Stack Developer with 2 years of experience building scalable, high-performance web applications using the MERN stack and modern cloud platforms. Delivered 25+ production-ready projects, improved system reliability and performance, and integrated secure payment, authentication, and real-time communication features. Strong ownership mindset, clean architecture advocate, and fast learner with proven ability to deliver end-to-end solutions.

## TECHNICAL SKILLS

- Frontend:** React.js, React Native, Next.js, Angular, Redux Toolkit, Zustand, Tailwind CSS, Shadcn UI, Bootstrap, Chakra UI
- Backend:** Node.js, Express.js, TypeScript, JavaScript, GraphQL, REST APIs
- Database:** MongoDB, PostgreSQL, MySQL, Firebase, Redis
- Cloud and DevOps:** AWS (EC2, S3), Azure, Nginx, Docker, Vercel, Render, Railway, CI/CD (GitHub Actions)
- Integrations:** Stripe, Razorpay, Cloudinary, Firebase Auth, Nodemailer, Multer, Socket.IO, ZegoCloud
- Tools:** Git, GitHub, Postman, Figma, VS Code, Linux, Windows
- Concepts:** Data Structures and Algorithms, MVC, RBAC, Authentication and Authorization

## EXPERIENCE

### Software Engineer

*HYPR4 Cloud Tech Private Limited*

2024-Sep - 2025-Oct

*Hyderabad, Telangana*

- Designed, developed, and maintained cloud-native web applications, improving feature delivery speed by 30%.
- Collaborated with cross-functional teams to implement scalable features, enhancing system performance and reliability.
- Conducted code reviews and optimized backend APIs, reducing production issues and improving maintainability.
- Monitored live systems and resolved critical issues, maintaining 99.9% uptime.

### Full Stack Developer Intern

2023-Aug - 2024-Sep

*Calicut, Kerala*

*Brototype*

- Completed an intensive 1-year MERN stack internship, delivering 15+ real-world applications.
- Built secure REST APIs with JWT, OAuth, and session-based authentication, improving application security.
- Integrated third-party services including Stripe, Razorpay, Firebase, Cloudinary, and real-time features.
- Followed clean architecture and industry coding standards, improving code readability and scalability.

### Quality Inspector

*Hyundai Motor India*

2021-Sep - 2023-Jun

*Chennai, Tamil Nadu*

- Inspected and validated exterior vehicle components, ensuring 100% compliance with quality standards.
- Reduced defect leakage by consistently identifying and rejecting faulty components before production.
- Maintained accurate inspection records to support production efficiency.

## EDUCATION

### Diploma in Mechanical Engineering

2018-Jul – 2021-May

*Government Polytechnic College*

*Malappuram, Kerala*

## PROJECTS

---

### **JobberWin | Social Media + Job Portal Platform**

GitHub - [Frontend](#) | [Backend](#)

- Architected and developed a **full-scale hiring platform** serving recruiters and job seekers in a single ecosystem.
- Implemented **JWT, Google OAuth**, and **OTP-based authentication**, strengthening platform security.
- Built **real-time chat and video calling** using Socket.IO and ZegoCloud.
- Designed an **RBAC system** supporting recruiters, job seekers, and admins.
- Integrated **Stripe-based subscription plans**, enabling recurring revenue.
- Deployed backend on **Azure** and frontend on **Vercel**, achieving high availability.
- **Tech Stack:** React, Node.js, Express, TypeScript, Redux Toolkit, MongoDB, Firebase, Docker

### **SpareKit | E-commerce Application**

[GitHub](#)

- Built a complete e-commerce system supporting **product search, orders, returns, and wallet refunds**.
- Integrated **Razorpay, COD, wallet, and referral rewards**, improving checkout flexibility.
- Built a full **admin dashboard** for managing products, categories, coupons, and transactions.
- Deployed on **AWS EC2**, ensuring scalable production readiness.
- **Tech Stack:** Node.js, Express, MongoDB, EJS, Razorpay, AWS, MVC Architecture

### **Mini Projects**

[GitHub](#)

- Developed multiple frontend and backend mini-projects demonstrating CRUD operations, authentication, and API integrations.
