

# PRAVEEN KUMAR

## FULL STACK DEVELOPER

 6305747758 |  praveenkumar0809s@gmail.com |  Noida, Uttar Pradesh, India

---

## SUMMARY

Detail-oriented and result-driven **Full Stack Developer** with strong hands-on experience in designing, developing, and deploying scalable web applications. Expertise in **React.js, Next.js, Node.js, NestJS, and MongoDB**, with proven ability to deliver complete end-to-end solutions independently. Passionate about building high-performance, SEO-optimized, and user-friendly products with clean and maintainable code.

---

## PROFESSIONAL EXPERIENCE

### Full Stack Developer

Peregrine IT Solutions | June 2024 – September 2025

- Worked as a **Full Stack Developer** contributing to real-world client applications under team guidance.
  - Developed and enhanced **responsive user interfaces** using **React.js and Next.js** based on provided designs and requirements.
  - Implemented and maintained **backend APIs** using **Node.js, Express.js, and NestJS** for existing applications.
  - Worked with **MongoDB** for data handling, basic schema updates, and query operations.
  - Assisted in implementing features such as **authentication, property listings, search functionality, and Google Maps integration**.
  - Followed best practices for **code quality, performance optimization, and SEO basics** under project standards.
  - Supported deployment activities and testing processes to ensure stable application releases.
- 

### MLS Online – Multi-Theme Real Estate Platform

#### Real-World Client Project

- Developed a **real-world, production-grade multi-theme real estate platform** deployed across **10+ live client websites**.
- Created **reusable UI components** and implemented dynamic theming to support multiple brand identities from a single codebase.

- Worked across both **frontend and backend**, ensuring scalability, maintainability, and clean architecture.
  - Improved **SEO readiness and page performance** through optimized rendering and structured layouts.
- 

### Space App – CABE (Space Management Platform)

- Built a real-world, production-grade **web-based space management system** for managing storage centers, customer onboarding, and space allocation.
  - Developed the frontend using **React.js, Next.js, and Bootstrap 5**, focusing on usability and performance.
  - Implemented backend services with **NestJS and Node.js**, backed by **MongoDB** for reliable data management.
  - Secured the platform using **JWT-based authentication** and role-based access control.
  - Integrated **Stripe payment gateway** for subscriptions, invoicing, secure card setup, and real-time payment updates via webhooks.
- 

## TECHNICAL SKILLS

**Frontend:** JavaScript, React.js, Next.js, HTML, CSS, Bootstrap

**Backend:** Node.js, Express.js, NestJS

**Databases:** MongoDB, SQLite

**Other:** REST APIs, JWT Authentication, Stripe Integration, SEO Optimization, Git, NPM, Yarn

---

## EDUCATION

**Bachelor of Technology – Mechanical Engineering**

CGPA: 7.0
