Skills

Technical skills: HTML, CSS, JavaScript, React, Redux, ExpressJS, MongoDB.

Technical Tools: VS Code, Postman, GitHub, Jira.

Soft Skills: Communication, Problem solving, Adaptability, Team Leadership

Experience

Full Stack Developer, Indus Informatics LLP

Feb 2025 – Present

- Led development of a scalable CRM platform for manufacturing, focused on lead tracking, sales automation, and resource planning.
- Built modular, reusable UI components with React, Redux, and Material UI to support dynamic dashboards and role-based access
- Enabled real-time updates and team collaboration via Socket.IO for seamless coordination across departments.

MERN Stack Developer, Purezza Technologies

Jan 2024 – Oct 2024

- Integrated third-party APIs, enabling seamless front-end and back-end and boosting system efficiency by 30%.
- Directed a team of 6 developers, consistently meeting milestones 20% ahead of schedule, enhancing collaboration and delivery.
- Built responsive interfaces using React.js and developed robust backends with Node.js, Express.js, and MongoDB.

Projects

CRMS Tool

[Link](#)

- Designed and implemented modules for 300+ leads and orders, enhancing sales workflows and reducing processing time by 30%.
- Delivered responsive dashboards with real-time data visualization, leveraging React.js, Tailwind Css.
- Deployed on live servers using Vercel (frontend) and Render (backend) for efficient scalability.

Invoice Generator

[Link](#)

- Built a user-centric platform to create, edit, and manage invoices, reducing manual workload by 30%.
- Added advanced features like tax calculations and PDF export, improving user satisfaction by 20%.
- Utilized React.js, Tailwind CSS, and JavaScript for a seamless UI and efficient functionality.

Quiz App

[Link](#)

- Created an interactive quiz app, enhancing user engagement by 25% through intuitive navigation and vibrant visuals.
- Enabled asynchronous data loading with AJAX, ensuring compatibility across 5 browsers.
- Deployed the application on Vercel, continuously monitoring and optimizing performance.

Education

Madan Mohan Malaviya University of Technology,

Dec 2020 – May 2024

- B.Tech. in Electrical Engineering
- GPA: 6.9/10

Hobbies

- Traveling
- Cooking
