# SEEMA KUMARI

Gurugram, Haryana | seemakri7782@gmail.com | +91-9142445058 | [LinkedIn](#) | [GitHub](#)

## SUMMARY

Full Stack Developer with 1+ year of experience building scalable backend services using Java (Spring Boot), REST APIs, and GraphQL, with strong skills in API integration and database handling. Proficient in creating responsive and user-friendly interfaces using React.js and JavaScript. Experienced across the full development lifecycle with a focus on clean, maintainable code and effective collaboration in Agile teams.

## SKILLS

- **Backend:** Java, Spring Boot, Hibernate, JDBC, PostgreSQL, SQL, REST APIs, Microservices, Object-Oriented Programming, Databases.
- **Frontend:** JavaScript (ES6+), React.js, Redux, Next.js, TypeScript, Context API, GraphQL, Axios, WebSocket, API Integration, HTML5, CSS3, Tailwind CSS, Material UI, Responsive Design.
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Eclipse, IntelliJ IDEA, Core Web Vitals, Performance Optimization.

## WORK EXPERIENCE

**Full Stack Developer**
*VelocitAi Digital – Gurgaon, Haryana | June 2024 – Present*
**VhAIre: AI-Based Hiring Platform (March 2025 – Present)**

- Engineered and integrated **GraphQL** services to support real-time proctoring, and recruitment workflows, improving system efficiency by 30%.
- Built responsive, reusable frontend components with **React.js**, **TypeScript**, and **Material UI**, implementing **Redux** for **global state** management and optimizing performance for faster load times, smoother interactions, and maintainable UI.
- Integrated **WebSockets** for bidirectional communication, enabling real-time functionalities such as live chat and notifications.
- Developed a custom API wrapper to simplify **GraphQL** query and mutation logic, improving productivity and maintainability.
- Implemented **dark/light mode** theming for enhanced accessibility and consistent user experience.
- Collaborated closely with backend teams to ensure seamless **GraphQL integration** and accurate data mapping across the platform.

**Velocitai Website (Nov 2024 – Dec 2024)**

- Developed a responsive company website and content management system using **React.js, Material UI, Tailwind CSS, and CSS3.**
- Built scalable RESTful APIs with Spring Boot to serve dynamic content and user data, supporting all frontend functionality.
- Implemented frontend integration with **RESTful APIs** to ensure real-time data rendering and a responsive user experience.
- Built and maintained a blog management system by integrating backend APIs for blogs, whitepapers, and insights from the Orion Project.
- Delivered the full-stack project within a **2-week** sprint, taking ownership of API design, development, and frontend integration.

**Orion Project (Sep 2024 – Nov 2024)**

- Built a **price monitoring system** to compare product prices, ratings, and reviews across multiple e-commerce platforms using **BeautifulSoup** and automated scraping pipelines.
- Implemented secure authentication **APIs (login & signup)** using Spring Boot to manage access for the price monitoring dashboard.
- Developed scalable **admin panels** for **blogs, whitepapers, and insights** with **full CRUD** functionality, creating backend APIs that were later integrated into the Velocitai Website.
- Stored and processed scraped data in a structured database for real-time comparison and reporting.

## PROJECTS

**INOX Ticket Booking Platform (Full Stack Project) | Sep 2023 – Oct 2023**

- Built a full-stack movie booking platform with Java, Spring Boot, and React.js, implementing authentication and booking management.
- Developed backend APIs using Java and Spring Boot, for login/signup, authentication, and core booking management.
- Developed a SPA with React Router and managed state using React Context API.
- Developed responsive UI components with Tailwind CSS, ensuring consistent styling and a seamless user experience across devices.
- Integrated frontend and backend using Axios to enable dynamic data fetching and synchronization for user actions.

## EDUCATION

**Master of Computer Applications (MCA)**                                             CGPA: 83.8%
Galgotias University, Greater Noida (Sep 2022 – May 2024)

**Bachelor of Computer Applications (BCA)**                                           CGPA: 71%
College of Commerce, Arts & Science, Patna (Patliputra University) (Oct 2019 – Mar 2022)

## CERTIFICATIONS

**Java Full Stack Developer Certificate (JSpiders)** — React, JavaScript, HTML/CSS, Java, Spring Boot.
