EDUCATION

GLA University, Mathura
Degree in Master of Computer Applications   2024 - Present

MJP Rohilkhand University, Bareilly
Degree in Bachelor of Computer Applications   2020 - 2023

EXPERIENCE

FIVERR | Freelance Full-Stack Web Developer   Remote, India | July 2023 - Dec 2024
- Delivered **20+ reusable frontend components** and **modules** using **React.js, JavaScript, and TypeScript.**
- Built and integrated **RESTful APIs** using **Node.js and Express.js** for real-world application use cases.
- Designed scalable MongoDB data models using **Mongoose and Moon Modeler.**
- Designed and implemented a node-based pipeline builder using **React.js and Python (FastAPI)** with **backend DAG validation.**

THE SPARKS FOUNDATION | Web Developer Intern   Remote | Dec 2022 - Jan 2023
- Developed a **responsive multi-page frontend** using **React 19 and React Router DOM v6** with smooth client-side routing.
- Implemented **advanced state management** using **Redux Toolkit (RTK)** for scalable and maintainable application logic.
- Built optimized forms using **React Hook Form and Yup** with **proper validation** and clean user input handling.
- Improved performance using **Code Splitting, Lazy Loading, and Memoization** techniques.
- Integrated **Axios with REST APIs** for secure data communication and real-time UI updates.

CONCENTRIX | Technical Support Associate   Gurugram, India | June 2024 - Sep 2025
- Analyzed and investigated technical issues reported by **US client (Comcast)**, utilizing CRM tools to track and manage cases efficiently.
- Resolved **backend system issues** by troubleshooting and coordinating with relevant teams, ensuring seamless **client operations and data integrity.**

SKILLS

Programming Languages:	JavaScript, C++, Java
Libraries/Frameworks:	React.js, Express.js, Node.js, Mongoose, Redux Toolkit, Tailwind CSS
Tools / Platforms:	HTML, CSS, VS code, Git, Github, Postman, Render, Netlify, Jest
Databases:	MySQL, MongoDB, PostgreSQL

PROJECTS / OPEN-SOURCE

TASKVAULT | Link   *MongoDB, Express.js, React.js, Node.js (MERN)*
- Built a **full-stack MERN application** with complete **CRUD functionality** using **React, Node.js, Express, and MongoDB.**
- Developed **RESTful APIs** following **MVC architecture** with **JWT authentication, custom middleware,** and **centralized error handling.**
- Implemented **rate limiting using Upstash Redis,** performed **API testing with Postman,** and **deployed the application on Render.**
