PROFESSIONAL SUMMARY

Full-stack developer with 1.5 years of experience building and maintaining web applications using MERN stack, Next JS, and modern frontend tools. I enjoy creating solutions that improve performance, scalability, and user experience.

RELEVANT EXPERIENCE

Radoms Digital Pvt. Ltd, Greater Noida   May 2024 - Oct 2025
Full Stack Developer

- **Radoms Digital:** Built a fast, modern company website using Next JS and Framer Motion. Optimized the code to make pages load 30% faster, creating a much smoother experience for visitors. (radomsdigital.com)
- **Newstapri:** Build a news and quiz platform from scratch using the MERN stack. Designed an easy-to-use admin panel that allowed the team to post content 40% faster through a custom management dashboard. (newstapri.com)
- **E-commerce Platform:** Developed a complete online store with dedicated apps for customers and staff. Built a system to manage 1,000+ individual products and automated the order process to save hours of manual work.

ITDose Infosystem, Sector 6, Noida   Oct 2025 - Present
Frontend Developer

- Improved and maintained multiple core modules for a large-scale healthcare system using React JS and Redux Toolkit to handle complex medical data.
- Simplified the digital workflow for doctors and technicians by building easy-to-use interfaces for entering test results and generating patient reports.

PROJECTS

- **Fitness Foods** - Ecommerce Application (https://thefitnessfoods.com)
- With separate user and admin applications, developed a complete e-commerce system that handles product, order, and user data management.
- I used Next JS and Tailwind CSS for the front end. I used Node JS with MongoDB for the backend.

SKILLS

Frontend: HTML, CSS, Javascript, Typescript, React JS, Next JS, Tailwind CSS
Backend: Node JS, MongoDB, PostgreSql, Prisma
DevOps: AWS, CI/CD, Docker
