Backend & Database: Node.js, Express.js, MongoDB
Tools & Version Control: Git, GitHub, Postman, VS Code
Other Skills: Responsive Design, REST API Integration, Authentication, Email Automation, Performance Optimization

WORK EXPERIENCE

Full Stack Developer (MERN)
Lifelayer Health Solution Pvt. Ltd. | 1.8 years
- Enhanced the company website by adding dynamic modules and interactive pages.
- Developed a full-stack job application system with authentication, form validation, and secure access.
- Designed and implemented an Admin Dashboard for employee management (add, update, delete, view).
- Integrated automated email notifications for employee creation and deletion events.
- Improved UI with Tailwind CSS and GSAP animations, making it responsive and engaging.
- Integrated frontend (Vue.js) with backend (Node.js, Express.js, MongoDB) for complete functionality.
- Optimized web performance, reducing page load time and improving accessibility.

PROJECTS

Lifelayer Health Solutions Website | Vue.js, Node.js, Tailwind CSS, GSAP, Node.js, MongoDB
- Currently enhancing the company website from broken/404 pages to a fully functional, responsive platform.
- Implemented login/signup with secure authentication, job posting, and employee management features.
- Developing an Admin Dashboard with full CRUD operations and automated email notifications.
- Improved UI/UX using Tailwind CSS and GSAP animations for a smooth, interactive experience.
