Summary

Full Stack Developer with over **2 years** of comprehensive experience, Skilled in delivering end-to-end web solutions using **Next.js, React.js, Node.js, Express, PostgreSQL, and MongoDB**. Proven expertise in managing international clients, leading teams, and developing scalable, production-ready applications. Strong focus on problem-solving, UI/UX optimization, and backend performance. Excellent communication and leadership skills, consistently demonstrated in team-based and client-facing environments.

Technologies

Frontend: ReactJS, NextJS, JavaScript, Redux, TypeScript, HTML5, CSS3, Bootstrap, TanStack, Material-UI

Backend: Node.js, Express.js, Sequelize, mongoose, REST APIs, JWT, Socket.io, PostgreSQL, SQL, MongoDB

Other: AWS, New relic, VS Code, Zed, Postman, Git, GitHub, OpenAI, Terraform.

Experience (2 Exp)

SDE1, Zyod – Gurugram, Haryana   January 2025 – August 2025

- Building and scalable web applications using technologies such as **React.js, Next.js, Redux, TypeScript, TanStack (React Query), Node.js, Express.js, PostgreSQL, Sequelize**
- Focused on delivering high-performance frontend UI/UX and robust backend API development, aligned with product goals to improve functionality, user experience, and operational efficiency across the platform

Software Engineer, CloudEQ – Chandigarh   August 2023 – Dec 2024

- Developed reusable frontend components in **React.js with Redux**, reducing UI development time, while ensuring performance and maintainability.
- Developed an integration between ServiceNow and JIRA using AWS Lambda, API Gateway, and JavaScript to automate ticket creation, status updates, and cross-platform collaboration.
- Developed scalable and responsive web applications with a focus on performance optimization and user experience.

Projects

Xpertise Manager

- Leads and managers can easily check which employees are working on specific tasks or projects
- Tools Used: Reactjs, PowerApps, TypeScript

RedBull Integration

- We integrate ServiceNow with JIRA. To integrate these two platforms, we use the JIRA and ServiceNow APIs. We can add comments, create tickets, and change the status of tickets through this integration.
- Tools Used: AWS Lambda, API Gateway, Javascript

ZYOD ERP

- Developed and ERP modules with advanced filtering, dynamic forms, and interactive tables. Improved performance via lazy loading, efficient Redux state management, and seamless API integrations.
- Tools Used: React, Nextjs, Redux, Javascript, Node.js, Express.js, PostgreSQL, REST APIs, SQL

Education

Panipat Institute of Engineering and Technology, B.TECH in Computer Science   August 2019 – March 2023

- CGPA: 8.1/10
