PROJECTS

Major Project:

Grain Hub: Online Rise Selling Platform

- Developed a full-stack e-commerce website for rice sellers and buyers.
- Implemented Spring Boot for the back-end and HTML, CSS, JavaScript for the front-end.
- Features Product management, cart, orders, authentication, and checkout with Cash on Delivery.
- Integrated MySql database to dynamically store user and product data.

Minor Project:

To-do List Web App

- To-Do List Web App – Angular
- Built a responsive To-Do List application using Angular to manage daily tasks.
- Implement Add, Edit, Delete, and Mark Completed features using Angular Components.
- Used Services & two-way data binding for smooth state management.
- Designed a clean and structured UI with HTML, CSS & Angular.
