# ABHAY GARG

**NODE.JS | REACT.JS | MONGODB | MYSQL**

**Phone:+91 7351579179**

**Email:abhaygargdps@gmail.com**
**LinkedIn:**[www.linkedin.com/in/abhay-garg-78a734258](www.linkedin.com/in/abhay-garg-78a734258)

## Professional Summary

Proactive and detail-oriented **Full Stack Developer** with hands-on experience in building scalable web applications using **MERN stack**. Skilled in developing RESTful APIs, secure authentication (JWT), and implementing modern frontends with **React.js**. Strong understanding of **data structures, algorithms**, and agile development. Looking to contribute to dynamic development teams and innovative product environments.

## Experience

### Software Developer| Accenture                                      (OCT 2024 – Present)

- Spearheaded the development of an **internal Employee Feedback Management System** using the **MERN** Stack improving employee input tracking by 40%.
- Resolved performance bottlenecks and improved **API response time by 30%**.
- Diagnosed and resolved critical issues in production tools, including **form validation**, **error handling API response optimizations**.
- Participated in Agile-based development activities, including sprint planning, task breakdown, and code reviews.
- Technologies: **HTML, CSS, Bootstrap JavaScript, React, Node.js, Express.js , MongoDB .**

### Backend Developer | Webtuks It Solutions                              ( *JULY 2024- SEPT 2024*)

- Developed a secure user authentication and management system (registration, login, password reset, session handling).
- Built **Easy Jobs**, a job portal with dynamic filtering by job category, country, and keyword.
- Integrate **JWT-based authentication** and MongoDB for persistence;
- Technologies **:HTML, CSS, JavaScript, React, Nodejs, Express.js, MongoDB, JWT**.

## Projects

### Food Ordering Platform – Full Stack Application

- Developed a complete online food ordering system featuring **user registration**, **login**, **cart management**, **checkout**, and **Stripe-based payment integration**.
- Managed state using **Context API** and useReducer for real-time cart updates.
- Implemented secure backend APIs, authentication, and MongoDB for data storage.
- Technologies **: HTML, CSS, JavaScript, React.js, Nodejs, Express.js, MongoDB, JWT, Stripe**.

## Education

**Galgotias College of Engineering and Technology** - **Greater Noida**                              Sep 2020 - Jun 2024
*(B.Tech - Computer Science and Engineering) -(CGPA: 8.08/10)*

## Skills

- **Languages:** C, C++, Data Structures And Algorithms, Python, SQL, JavaScript.
- **Development:** HTML, CSS, React, Angular, NodeJs, Express.js, MySQL, Bootstrap, Socket.IO.
- **Relevant Coursework**:, OOPs, Operating System, Algorithm Design, DBMS, Computer Networks.
- **Developer Tools**: Git/Github, VsCode, Postman.
- **Personal Competence:**: Problem-Solving, Adaptability, Self-Driven, Time Management, Collaboration, Communication.
